01. Education Sector

Coordination of Humanitarian Assistance (CHA) has collaborated with Ministry of Education for decades to carry out national education projects all over the country to ensure access to quality education for all. Since 1997, CHA has the pride of implementing 65 educational projects in 40 districts of 10 provinces of Afghanistan. Through these implemented projects, 238,625 male and female students and teachers benefited. These projects mostly covered general education, teacher training courses, literacy courses, capacity building programs and technical and vocational trainings. Besides, CHA has the honor of initiating distance education program (Great Idea) in 6 provinces of the country through live telecast of science subjects such as mathematics, physics, chemistry and biology. The main goal of the project was to outreach education by distance learning that guarantees quality secondary education for both boys and girls in compliance with the policies of ministry of education.

- 65 Projects
- 238,625 Students & Teachers

02. Health & Nutrition Sector

Since 2003, Health and nutrition sector of CHA with closed coordination of MoPH, has implemented more than 20 health projects in 66 districts of five provinces including Herat, Balkh, Ghor, Farah and Faryab. Total 5,310,270 beneficiary including male, female and children benefited from the health program. For the first time, in three provinces of Afghanistan including Herat, Farah and Ghor, CHA innovated and established distant capacity building program for health facilities staff under the Improving Capacity for Integrated Development of Livelihoods (ICIDL) program. In addition CHA introduced and piloted Sub Health Center (SHC) to Afghanistan health system. The aim of establishing SHCs was to increase access to health services for underserved population in remote areas; In 2010 SHC integrated in BPHS and extended to all provinces.

- 20 Projects
- 5,310,270 Beneficiary
- Trainings
03. AGRICULTURE & LIVESTOCK SECTOR

Since 2006, Coordination of Humanitarian Assistance (CHA) in close coordination with Ministry of Agriculture, Irrigation and livestock and other partners, implemented 12 agricultural projects in 10 provinces (30 remote districts). Through implementation of those projects, 3,106,552 beneficiary including men, women and children benefited.

Furthermore, CHA for the first time with continuous efforts initiated an effective distance learning program for farmers’ capacity building under the name of Improving Capacity for Integrated Development of Livelihood (ICIDL) in three provinces (Farah, Ghor and Herat), which many of our clients have been benefited from.

04. COMMUNITY DEVELOPMENT SECTOR

Coordination of Humanitarian Assistance (CHA) implemented the programs including National Solidarity Program, Peace building, Community Based Stabilization Grant, Targeting Ultra Poor (TUP), Women Empowerment and Livelihood programs with full coordination of line ministries like MRRD, MoRR, MoWA and MAIL. Through the implementation of these programs CHA has been targeting remote areas in 31 districts of eight provinces. Under community development sector, CHA’s achievements were; establishing 2206 CDCs, 56 Self Help groups, 20 peace committees and peace shuras, 2 aviculture cooperatives, developing community development plan for targeted communities, implementation of 4501 infrastructure sub-projects for transport, water hygiene and sanitation, Irrigation, disaster risk reduction, health, education, rural development, energy, buildings and livelihood sectors. Furthermore, CHA has provided capacity building programs including managerial trainings for 37,796 beneficiary of targeted provinces.
